1 SENTENCE

Level Duo turns iPhone Duo's two screens into a dual-layered tilt maze.

2 SENTENCES

Level Duo turns iPhone Duo's two screens into a dual-layered tilt maze. Pop out of the iPhone's camera, then dodge, weave, and unfold as the ball drops to the level below.

4 SENTENCES

Turn your iPhone Duo's two screens into a dual-layered tilt maze. Pop out of the iPhone's front camera, to dodge traps and sharp teeth. Unfold your iPhone and the ball drops into the level below, filling the whole display. Play across 24 levels in Wood and see-through Glass worlds, with a snow-themed update on the way. Pay: £1.99 once, with no ads, tracking, or in-app purchases.

“I wondered what a game across both screens of iPhone Duo would feel like” says developer Nick Haley. “What started as an experiment, grew into a simple, fun maze game.”

What's next for Level Duo?

12 December Snow World, a winter update. Play as a snowball that rolls and grows. Too large and you won't fit. With new obstacles and the ability to melt under heaters too.
